Diving Barbados

A Ladies Trip for Reefs, Wrecks and Island Time

Join the Underwater World ladies group for a week in Barbados. The island combines Caribbean reefs and wrecks with beaches, local food and time to unwind on land. Diving around the island offers different subjects from one day to the next, from reef fish to the wrecks of Carlisle Bay.

Stay seven nights at Mango Bay Resort in a Superior Room, with meals, snacks and house drinks included. Five days of two-tank morning boat dives leave time for the resort, water sports and the included catamaran cruise.

Barb Gotwols leads the group. Women divers and non-divers are welcome. Dive sites and daily plans must suit the participants and conditions; ask UWW about certification dives, Advanced and Nitrox training before the trip.
