DEWI NUSANTARA

MAY 30-JUNE 9, 2028

Diving Flores to Alor

Ten Nights Aboard Dewi Nusantara

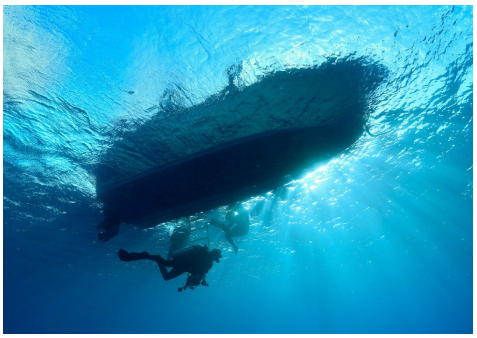

Leave the daily packing behind and make Dewi Nusantara your home for ten nights. This wooden three-masted schooner carries you through the Flores-to-Alor region of Indonesia, where reef slopes, walls, anemone-covered sites and sheltered macro-diving areas offer different subjects from one dive to the next.

The UWW package includes a Deluxe Stateroom, meals on board and 3-4 guided dives per day in small groups, with tanks and weights. Between dives, settle into the lounge or outdoor decks and enjoy the changing island scenery.

Ada Staal leads the UWW trip. The May 30-June 9, 2028 dates cover the cruise; international and domestic flights, hotels and any optional pre-extension are arranged separately. The captain and cruise team adapt the daily diving to conditions.
